**Get More Out Of Your Garden Tractor
Toro® Wheel Horse® Introduces the New 400XT Series**

MINNEAPOLIS, MN – Quality, versatility and comfort. Three words that describe the new Toro Wheel Horse 400XT Series garden tractors. With this new line of garden tractors Toro® Wheel Horse® has created a real workhorse to help with many outdoor chores. From cutting grass to throwing snow, tilling the garden to hauling your supplies this great new garden tractor can do it all.

"The 400XT Series is one of the most versatile lines of tractors we've ever built," says David Alkire, Senior Marketing Manager for Toro Riding Products. The new 400XT Series tractors will work with older model Toro Wheel Horse Classic tractor attachments. "If you're in the market for a new tractor, this is great news," says Alkire. "You can upgrade to a new machine without having to reinvest in all new attachments." Changing those attachments is a breeze with Toro's exclusive Attach-A-Matic® hitch system. This no-hassle system allows you to change attachments without tools, getting you back to the job faster.

The new 400XT Series tractors feature dependable engines and tough construction. Look for 16-horsepower Kohler and 17- and 19-horsepower twin-cylinder Kawasaki engines powering the new line. An angle iron frame and cast iron front axle deliver the superior quality consumers have come to count on with Toro Wheel Horse.

A sleek, sloped hood provides great visibility while mowing. And, a 16-inch turning radius is the best in this tractor class. Tight turning means greater maneuverability around trees and other obstacles in the yard. Cutting decks range in size from 42-inch to 52-inch. Add Toro's optional Recycler kits and your lawn can have that just bagged look without actually bagging your clippings.

Comfort features such as an easy step-through design, cup holder, cruise control and tilt steering make the 400XT Series tractors fun as well as functional.

Toro Wheel Horse Tractors are covered by a two-year full warranty. Simply put, if anything goes wrong with your Toro Wheel Horse Tractor, under normal use, Toro will fix it for free. The new 400XT Series Tractors also feature a five-year Workhorse WarrantySM that covers the frame and axle.

All these features add up to a great value. Prices for the new 400 Series Toro Wheel Horse Tractors range from \$3,999 - \$5,299. Look for the 416XT, 417XT, and the 419XT this spring at your local Toro dealer.

Toro is a leading worldwide provider of outdoor maintenance and beautification products for home, recreation and commercial landscapes.
