**More Power. Better Control. More Comfort.
Toro Introduces the New Electric Ultra Blower/Vac |**

MINNEAPOLIS, MN – Growing the lushest lawn on the block is only half the battle. For a true “estate quality” look, it needs to be manicured to perfection. Luckily for homeowners, Toro has developed the new electric Ultra Blower/Vac making final cleanup work quick and painless.

Toro’s Ultra Blower/Vac is at the top of its class. You can't buy a more powerful handheld blower, gas or electric. With a maximum *225-mpH* jet stream of air at your fingertips, debris such as sticks, wet leaves and clumps of dirt are removed quickly. And the Ultra Blower/Vac can even handle the rocks or gravel which creep onto pavement and walkways – one swoop of the Ultra Blower/Vac will have it gone in seconds.

The new infinitely variable speed control offers ultimate flexibility in both blower and vacuum modes. You control the air speed anywhere between 90 and 225 miles per

hour. For lighter jobs, such as sweeping out the garage, turn the Ultra Blower/Vac's power down to as low as 90-mph for more control.

The Ultra Blower/Vac is not only a blower, but also a powerful vacuum with superior mulching capabilities. Toro engineers have designed a new state-of-art magnesium impeller that turns leaves and twigs into fine mulch. The new Ultra Blower/Vac has a 16-to-1-leaf reduction ratio, great for reducing your trips to the compost pile. And unlike competitive blower/vacs where the plastic impeller is worn down by Mother Nature's "sandpaper," the lightweight yet durable magnesium impeller will last longer.

The Ultra Blower/Vac has been ergonomically designed for maximum comfort. The comfort control grip is easier to handle and provides maximum control of the machine by keeping your hands securely in place. And because it only weighs 7.3 pounds, it's easy to maneuver around the yard, there is no need to deal with the added weight and noise associated with heavy-duty gas blowers. A release latch makes it quick and easy to convert from blower to vacuum without tools.

The new electric Ultra Blower/Vac retails for around \$80 and is covered by a two-year full warranty. Look for it at select Toro dealers and home centers.

Toro is a leading worldwide provider of outdoor maintenance and beautification products for home, recreation and commercial landscapes. For more information on the Ultra Blower/Vac or other Toro products, contact Toro at 1-800-595-6841 or visit us at www.toro.com. For tips on caring for your lawn and garden log on to www.yardcare.com.
